

Preliminary steps to perform to ensure your computer is ready to run CompassLearning from home 12/01/2010

Step 1: Load your browser on your computer ex: (Internet Explorer, Mozilla Firefox, Safari, etc.)

Step 2: In the address bar, type the following URL:
<http://compass/childu/systemrequirements.html>

Step 3: Next, click the Check System button located at the top middle of the screen. This will bring you to the “Is your system ready?” screen where it will scan your computer to see if it has the minimum requirements to run the program. The results will be displayed as a green check mark or a red x to the right of each column on the screen. If you receive a red x next to an item, such as the browser or Flash Player version, there will be a link provided so that you can upgrade to the latest version of that particular software.

Once you have updated each item that came back with a red x, restart your computer to make sure that the changes take affect. Your computer should now be ready to run the Compass software.

After performing the steps above, type in the following URL to load Compass Learning:
http://compass.aiken.k12.sc.us/clo_login.aspx

Recommendation:

1. Bookmark this site by clicking on the Favorites menu at the top of the browser and selecting Add to Favorites. Then click OK.

Or

2. create shortcut on your computer desktop to the Compass Learning Website:

http://compass.aiken.k12.sc.us/clo_login.aspx

3. Check to see if there is a link on your schools website to access the program.
