

Classroom Observation Suggestions

Student name:

Date:

Observer's name:

Location of observation:

Time of observation: _____ to _____

During the observation, here are some suggestions for data that would be helpful in making the determination for additional adult assistance.

- How are the accommodations and modifications listed in the IEP being implemented?
- How is the instruction differentiated?
- What is the classroom behavior management system? What are the rules, rewards, and consequences that support positive student behavior?
- Are there well established rituals and routines in the classroom?
- How does the student being observed compare to the typical peers in the classroom?
